REPORT OF SOLON PUBLIC LIBRARY

137 volumes have been added to the library the past year, 19 of them were for the pay shelf which is self supporting.

Dr. A. B. Withington of Pittsfield, Mass., presented the library with 40 volumes.

38 volumes of State Reports have been received during the past year.

The average number loaned each week is 125.

We now have 1467 volumes catalogued.

We wish the towns people would donate more of their old magazines to the library.

Solon School Report

To the Citizens of the Town of Solon:

We have pleasure in reporting a very satisfactory year in school work. The teachers are especially to be commended for their work. We feel that the corps of teachers at the village building is a strong, efficient and earnest body of workers.

The Washington school is still the largest rural school in town and it has been during the present school year under the skilled direction of Miss Rena McCollar.

The Franklin school buildings have been put in excellent repair and the school room is now neat and attractive.

It is probably not necessary to remind you that we must hereafter maintain at least thirty weeks of common school and our terms were re-arranged to meet this condition.

On the urgent recommendation of the State Superintendent of Schools we have engaged a third teacher in the High school. This need seemed imperative.

We are hoping for a closer interest and a better mutual understanding between the citizens and the schools through the early forming of a Parent-Teachers' Association.

We request your careful consideration of our financial and general reports.

REPORT OF THE PRINCIPAL OF SOLON HIGH SCHOOL

To the Superintendent of Schools:

It gives me great pleasure to submit for your consideration my first annual report as Principal of Solon High School.

The present year opened the 7th day of September with an enrollment of 55 pupils, 33 girls and 22 boys. Three pupils have discontinued their studies making the present enrollment of 52 pupils. Of this number 12 are pursuing the College Preparatory Course and 40 are pursuing the English Course. The enrollment by classes is as follows: Seniors, 16; Juniors, 7; Sophomores, 16; Freshmen, 13.

At the beginning of the second term another assistant teacher was added to the teaching force of the school. State School Inspector Taylor had said that a third teacher was an absolute necessity. This third teacher was employed, not to lessen the work of the other two teachers, as some may think, but that a greater amount of time might be given to the work of each pupil. During the first term our daily schedule was very congested and not enough time was given to each study but with the addition of the third teacher this condition has been remedied.

We have tried the past year to keep within the limits of the money raised for text books and supplies. In ordering chemical supplies I ordered only those supplies which were absolutely necessary. It will be necessary to expend quite an amount on new books next year as we are using in some of the classes in every way but we hope you will lend your aid in raising more money for text books and supplies for the coming year.

The past year we have introduced inter-class debates which we think have proved helpful to both pupil and visitor.

The spirit in the school has been fine. The attendance has also been good and I wish to express my thanks to the parents for their co-operation in keeping their attendance at a high mark. I wish also that there might be a closer relationship between parent and scholar. If the parents will show an interest in the work of a scholar at school and at home much better work will be accomplished by the scholar. Another method by which the parents can show their interest is by visiting the school at which his or her child goes. A cordial welcome to visit their schools is extended by all the teachers.

I wish to express again the thanks of the school to the Abigail Chamberlain Chapter of the Daughters of the American Revolution for their beautiful and valuable gift, a fac-simile of the Declaration of Independence.

In closing I would express my thanks to the School Committee for its unfailing courtesy and to the Superintendent for his loyal co-operation.

Respectfully submitted,

ELMER O. SMALL.

GENERAL STATEMENT

No. different teachers employed in Common Schools	15
No. experienced teachers	15
No. weeks in Common School Year	32
No. weeks in High School Year	36
Average weekly wage of Common School teachers..	\$9.25
Average weekly cost of each Common School	15.65
Average weekly cost of all Common Schools	109.58
Av. No. days schools were maintained for the year	160

It is not possible to make a full statistical report for a year corresponding to the present fiscal year, inasmuch as reports are not at hand for the present incomplete winter term.

To support our schools on their present basis will require an appropriation of \$1600 for support of Common Schools and an appropriation of \$1200 for support of Free High School.

We recommend that separate appropriations be made for books and supplies for Common Schools and High School and we recommend an appropriation of \$150 for books in the High School and \$250 for books for Common Schools.

The Maple Grove school house should be painted; the underpinning at the Longfellow School needs repairs, and improved out-house conditions are needed at the Washington School.

We recommend an appropriation of \$200 for repairs.
